

# HTML template Tableau Tips

## 1 WITH CHART WINDOW OPEN

Under top menu, choose **FORMAT**, then Borders...

### Format Borders:

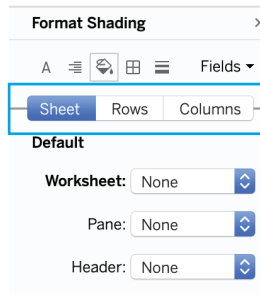

Set all to *none* for Sheet, Rows and Columns

Etc.

### Format Shading:

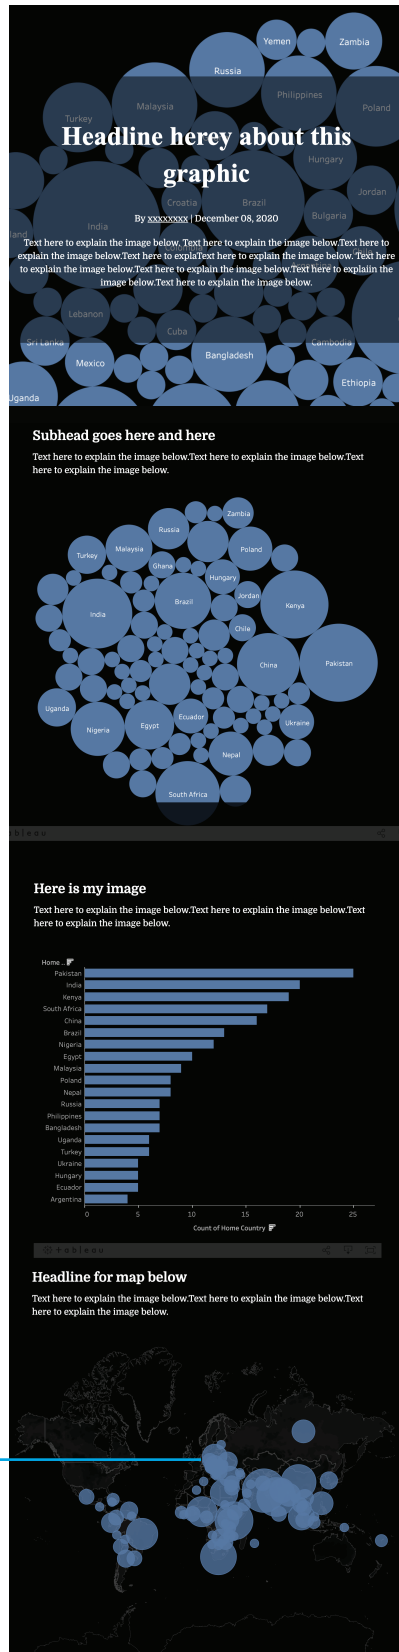

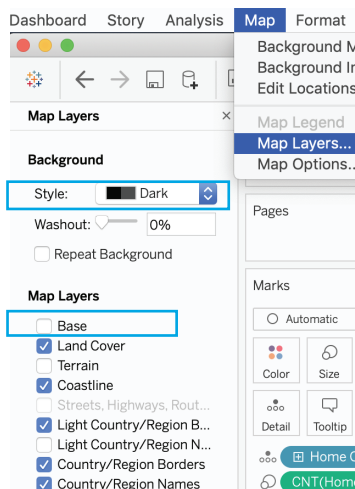

Set all to *none* for Sheet, Rows and Columns

Etc.

## 1b FOR MAPS

Set style to *dark* and turn off base layer

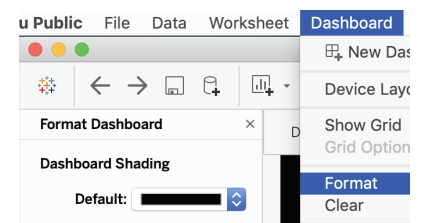

## 2 PUT EACH CHART INTO A DASHBOARD

That allows you to control more about the background of the chart.

## 3 FORMAT EACH DASHBOARD:

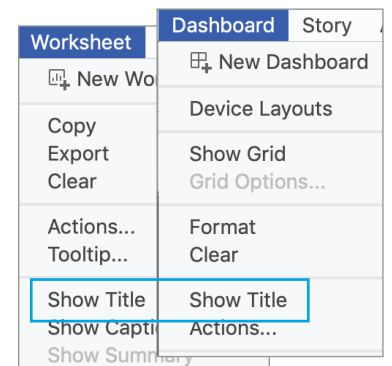

### Set dashboard shading:

Turn default color to **BLACK**

### Uncheck Show Title

two places:  
(Find under top menu

### Set size of dashboard

Try this, though you may need to experiment
