HTML template overview

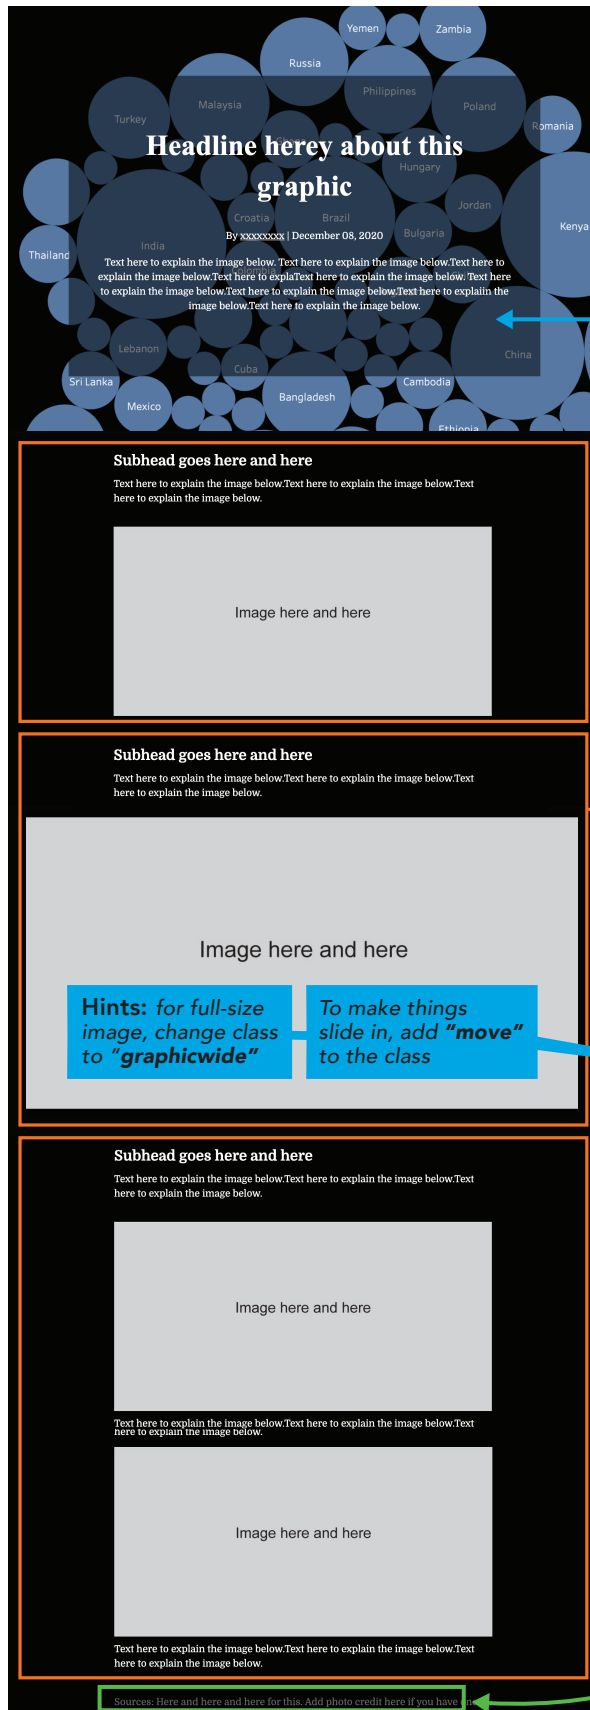

START AT LINE 400

CUSTOMIZE LOOK
Read directions in template for changing color scheme and photo background.

```
404
405  <body id="site" class="base" style="background-image: url(); background-color: black;
     color: white;">
406
407
408  <!-- INTRO SECTION /////////////////////// -->
409       <!-- OPTIONS:
410            1. Add the link to your opening image between the parenthesis below. Do
                 not do this AND a fixed background image behind the whole graphic. -->
411
412       <div class="coveropener start fade-in" style="background-image: url(
          images/test.png);">
413
```

HEADLINE/BYLINE/INTRODUCTION
Make sure you highlight just the live text and replace with your own information. *Be careful not to delete any HTML tags/brackets* or you could break it.

```
419       the color by messing with the RGB values (0,0,0)
          <div class="centered" style="background-color: rgb(0, 0, 0, 0.5);"
420            <h1>Headline herey about this graphic</h1>
421            <p>By <a href="/accounts/profiles/xxxxx/">xxxxxxxx</a> |
                 December 08, 2020</p>
422            <p>Text here to explain the image below. Text here to explain
                 the image below.Text here to explain the image below.Text here
                 to explaText here to explain the image below. Text here to
                 explain the image below.Text here to explain the image below.
                 Text here to explaiin the image below.Text here to explain the
                 image below.</p>
423          </div>
          </div>
```

THE GRAPHIC MODULES
Each graphic module is comprised of a subhead, intro text, and a placeholder image div.

```
449
450  <!-- BEGIN SINGLE LAYER - SIMPLE FULL-WIDTH IMAGE -->
451
452       <div class="graphic">
453            <h4>Subhead goes here and here</h4>
454            <p>Text here to explain the image below.Text he
                 image below.Text here to explain the image belo
455       </div>
456
457       <div class="graphicwide move">
458
459          <!-- Change image name below, or replace the en
               code.
460          <img src="images/placeholderimage.jpg">
461
462
463
464
465  <!-- END SINGLE LAYER - SIMPLE FULL-WIDTH IMAGE -->
```

Tip: do not delete quote marks around image source

You can have as many modules as you want, just remember when deleting or adding, always *highlight the entire group* from BEGIN SINGLE LAYER...all the way to...END SINGLE LAYER.

Hints: *for full-size image, change class to "graphicwide"*

To make things slide in, add "move" to the class

SOURCES AND PHOTO CREDIT
Don't forget your sources or photo credits. Remember not delete any of </div> or other tags.

```
489
490  <!-- BEGIN SOURCES/PHOTO CREDITS -->
491
492  <div class="graphic" style="color: #666666;"><p>Sources: Here and here and here for
     this. Add photo credit here if you have one</p></div>
493
494  <!-- END SOURCES/PHOTO CREDITS -->
495
```
